The Department of Mathematics at West Virginia University invites applications for two full-time, tenure-track positions at the rank of Assistant Professor to begin August 16, 2012. Outstanding candidates in any area of mathematics are encouraged to apply. For one position, preference will be given to candidates with research in some branch of analysis. For the second, preference will be given to candidates whose research aligns well with discrete or applied mathematics in a way that can contribute to the development of a University-wide capability to support advanced computational scientific research. Candidates with potential to contribute to our undergraduate curriculum will receive special consideration. Minimum requirements are completion of the Ph.D. or equivalent doctoral degree in mathematics by August 15, 2012, evidence of potential to achieve a record of excellence in research and teaching, potential for establishing an externally funded research program, and potential for excellence in teaching at both the graduate and undergraduate levels. The Department of Mathematics consists of 25 tenured and tenure-track faculty, three postdoctoral researchers, and 46 graduate students. West Virginia University is a Doctoral/Research University-Extensive Land Grant institution enrolling over 28,000 students. The University is located in Morgantown, WV, an award winning "small" city with a metropolitan population of about 100,000 within easy travel distance to Pittsburgh and Washington, DC. Applicants should submit their curriculum vitae, a plan of research, a statement of teaching philosophy and arrange for at least three letters of recommendations to be sent to
